MISSION STATEMENT

ETF is dedicated to improving the lives of children battling life-threatening or debilitating medical conditions at St. Jude Children's Research Hospital. Through direct personal involvement and financial assistance, we strive to enhance the physical, emotional and social well-being of children and families in need. A not-for-profit organization, our foundation was created to transform donations into miracles.

St. Jude Children's Research Hospital: Facts

St. Jude is the only pediatric cancer research center where families never pay for treatment not covered by insurance. **No family ever pays St. Jude for anything.**

St. Jude has changed the face of pediatric medical science. As one of the world's premier pediatric cancer research centers, St. Jude has developed protocols that have helped push overall survival rates for childhood cancers from less than 20 percent, when the hospital opened in 1962, to more than 80 percent today.

St. Jude was the first pediatric research center to build an on-site facility to research and produce highly specialized medicines and vaccines that pharmaceutical companies do not produce.

St. Jude is a national resource for the global medical community. Not only are all research findings freely shared, St. Jude plays a critical leadership role in groundbreaking studies on childhood cancer, pediatrics AIDS, avian flu and sickle cell disease.

Every child saved at St. Jude means children saved around the world – a direct result of cutting-edge research and treatment that set the standards in treating childhood cancers for hospitals across America.
